

**Harvey Aluminum Increases Prices**

Harvey Aluminum, Inc., put into effect a price increase of one cent a pound on aluminum extruded rod, bar, and shapes in alloy 6063 Monday. The increase does not change the pricing structure for quantity, packaging and other differentials, the company said.

**New Plan Provides Girls Work**

Special summer plans to assist girls in the area to continue their education are now in operation at the General Telephone Co. The new program is a "Vacation Work Program." The telephone company offers the program to girls in the junior or senior class in local

high schools. Bernard LeBaron, manager of the district, said, "It is our hope that by providing exceptional high school girls with pleasant operator positions and good wages they will earn enough money to attend college."

high school counselors in the area. Girls who meet the standards are interviewed by the personnel office at the firm. Potential program enrollees must have a B average and be studying a college preparatory course of studies. The girls must also be in need of finan-

cial help to continue their education.

Area high schools which participate in the program include North and West High, as well as Bishop Montgomery and South High. Also participating in the program are high schools in Redondo Beach, Hermosa Beach, Palos Verdes and Manhattan Beach.

**Everyone Reads the HERALD**

**OPERATORS FOR SUMMER . . .** On the job are four of the girls chosen by General Telephone Co.'s Southwest office from nine local high schools. To be selected students must have college aspirations and be available for summer and Christmas work. Summer employees are: (from left to right) Maureen Jordan, Bishop Montgomery High School; Doreen Davidson, Redondo High School; Rina Benmayor of UCLA, Redondo High School graduate; and Christie Goodwin, California State Polytechnic College in San Luis Obispo, former Mira Costa High School student.

**There'll Be No Coast Freeway, Assemblyman Assures Residents**

**CHARLES E. CHAPEL**, Assemblyman, 46th District. There never will be a freeway or expressway between the San Diego Freeway and the Pacific Ocean (Santa Monica Bay is an inlet of the Pacific Ocean). This means there will be no freeway or expressway on or near Pacific Coast Highway, presently designated as Highway 101 Alternate, and called by various other names in several communities.

Government, which I doubt, there still will be no freeway or expressway along this route. IT IS premature to explain in detail why what I have said above is absolutely true, but it is definite and factual. Therefore, anyone can save time, and money if you send no more telegrams, write no more letters, and make no more telephone calls on this subject. The same applies to the confusion regarding the Playa del Rey area, the Marina del Rey Harbor area, and the Century Freeway.

California, several members of the U. S. House of Representatives, the Governor of California, and many other federal, state, county, and city officials have asked me to make this announcement through the newspapers because all of them have been bombarded by perfectly sincere citizens who quite rightfully have been upset by inaccurate, misleading, and false statements regarding freeways and expressways in and near the 46th Assembly District. If you have any doubt about it and still want to express yourself, please write to Mr. J. C. Womack, State Highway Engineer, Division of Highways, Public Works Building, 1120 N Street, Sacramento, Calif.

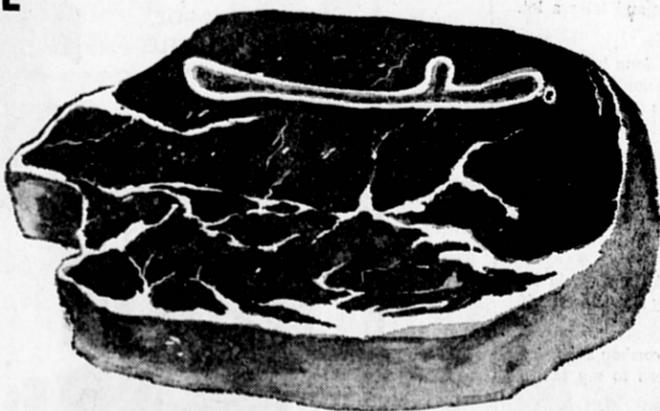

This statement is definite regardless of what you have read or heard to the contrary. Also, if any bill authorizing such foolishness is signed by the

The U.S. Senators from Calif.

**DURING THE 1963** regular session of the California State Legislature, which started on the first Monday in January and ended at midnight, June 21, 1963, I voted NO, repeat NO, in committees, and on the floor of the Assembly, on every bill, resolution, or other type of legislation which would levy new taxes or increase existing taxes, directly or indirectly. I have done the same thing during the entire time I have been in the Legislature, which is almost 14 years.

When he campaigned for reelection at the last general election, Governor Edmund G. Brown promised the voters that he would not ask for, demand, or sign into law any increase of taxes or the imposition of any new tax, directly, or indirectly. Therefore, in voting on taxes as I did, I was helping our sometimes beloved Governor Brown to carry out the solemn pledges he made to all the people of California during his last campaign.

I am still waiting for Governor Brown to write me a letter of thanks, but I am not holding my breath in the expectation that such a letter of gratitude will arrive soon.

**THESE STATEMENTS** are not necessarily intended as any reflection on the truthfulness of Governor Brown. However, I do think perhaps he has forgotten what he told the people during his last campaign. Some rather violent Democrats and Republicans have called His Excellency, Governor Brown, several nasty, four-letter words, but I disapprove of such rough language. As a former Boy Scout, I prefer to think that the heavy burdens of his office have caused Governor Brown to have a lapse of memory.

Let us all remember Governor Brown in our prayers and sincerely pray that his mind and memory may be fully restored in order that he can return to private life at the end of his present term in good physical, mental, and spiritual health.
